# ≋QUiCKCHECK

RIViR Presents QUiCKCHECK—
Program Assessment Scan

QUiCKCHECK utilizes nationally-proven models to detect fraud patterns, improper billing, inappropriate relationships, and schemes. It identifies risks, which adversely affect program participants and stakeholders and deplete the funds intended for our most vulnerable populations. **QUiCKCHECK** provides general information on areas of interest to your organization and offers suggested next steps for resolution and deterrence.

Qlarant offers multiple recommendations for your agency and may include:

- Implementing additional system edits
- Modifying or enhancing policy
- Education
- Prepayment selection

- Provider monitoring
- Auditing
- Enhancing contract language
- Collaboration opportunities

QUiCKCHECK Provides a Roadmap for Your Program Success

Add Oversight and Monitoring Evidence
- Provides proof of required program dollar monitoring for both FFS and managed care
- Identifies policy compliance anomalies of FFS and managed care providers by running predefined models with current data
- Focuses on models with historical areas of interest or increasing utilization
- Informs development of work plans and future audit initiatives

Identify Highest ROI Potential
- Uses highest yield models for audit selection
- Informs future policy or prior authorization requirements
- Informs recipient lock-in policy
- Identifies enhancements to future contract provisions e.g. transportation brokers, managed care, PBMs for service level agreements and penalties
- Focuses on data deficiencies most likely to impact outcomes

Focus on Data Integrity to Uncover Omissions or Errors
- Reconciles contractor claim volume submissions with payment summary reports for variation
- Detects missing ordering/referring providers from required services
- Locates organizational NPIs in individual NPI fields
- Identifies null values in required fields
- Discovers invalid NPIs

Plan the Direction of your Program with the QUiCKCHECK report
- Provides summary information for the areas selected
- Supports and identifies contractor deficiencies or concerns
- Suggests recommended actions based upon national experience

Contact Tammy Hypes at hypest@qlarant.com for more information or to arrange for your **QUiCKCHECK**
